The Honorable Franklin G. Fleet  
Administrator  
General Services Administration  
Washington 25, D. C.

Dear Mr. Fleet:

A letter dated June 19, 1958 from Mr. McCauley transmission a final draft of the security conditions for inclusion in the construction contracts for the Central Intelligence Agency headquarters building at Langley, Virginia and advised that these conditions were satisfactory to the Public Buildings Service. I am pleased to report that this final draft is fully satisfactory to this agency.

I hereby find that the proposed Central Intelligence Agency headquarters building project presents a significant opportunity for information relating to intelligence sources and methods to be obtained contrary to the national interest. In fulfillment of my responsibilities under Section 102 of the National Security Act of 1947 (50 U. S. Code 403 (d) (3)), I hereby determine it is essential for the protection of intelligence sources and methods from unauthorized disclosure that the security conditions referred to above be incorporated in the Public Buildings Service contracts covering the Central Intelligence Agency headquarters construction program.

Sincerely,

CONCURRENCES:

The Honorable Franklin G. Floete  
Administrator  
General Services Administration  
Washington 25, D. C.

Dear Mr. Floete:

Thank you for your letter of 6 August 1957 inviting us to participate in the preparation of a standard Government correspondence style manual.

I should like to nominate [redacted] who may be reached on [redacted] as a representative of the Central Intelligence Agency.

Sincerely,

/s/  
L. K. White  
Deputy Director

MEMORANDUM FOR: The Director

In order to provide proper security safeguards during the construction of our new building we have requested that the Public Buildings Service incorporate certain special provisions in our construction contract. These conditions have been formalized in an attachment to Mr. McConihe's letter of 19 June 1958 (Tab A). It is necessary for you to sign a statement determining that these conditions are essential because of the possible extra costs involved.

Recommend signature.
